August 2026 Vol 8

July Recap and Other News

Nick, yours truly, was not in attendance due to family commitments. Thank you Walter for filling in for me and running the Show N Tell and other secretary duties. This newsletter is last minute to include some pictures and news from Nationals which took place in Fort Wayne IN last week. Many of our members attended Nimcon and I had a vendor table there too. It was a good show. John discussed the upcoming Nationals convention and the great opportunity of having it so close by. Don't miss it! Ihor suggested doing a group build as something new. What a great idea! He also suggested something that I have been contemplating, that is making the show n tell form electronic and give people the ability to sign in before the meeting. Other things covered last month were the topic of judging. Judging is always a lengthy a sometimes heated debate. I hope this time it was a good productive discussion. And John gave us his monthly store update which we always are eager to hear.

Nationals

Bob's USS Constitution was a big hit at Nats but unfortunately did not come home with the top prize even though it was our club favourite. Good Job Bob! Nick overspent the raffle and uncharacteristically came home with only one prize. John had a vendor table where he promoted his store and sold a few kits. More will be shared at the meeting.

November BOH Show

Coming up in November on the 14th is our own show. This year it will be a Regional show again as it was 2 years ago. This should draw more contestants and vendors. To accommodate the increased numbers and to respond to requests for improved lighting etc, we are moving to the big venue at the fairgrounds. So far we have commitment from 35 vendors with 21 paid. We also landed the quality vendor "Dean's Hobby Stop". Other vendors that expressed interest include David Doyle Books, and Steel Pot Studios. Nick brought a layout map that showed 125 vendor tables and 138 competition tables. We will have plenty of room. We will also make arrangements for a food truck to keep people on the grounds. This is in response to a request from many vendors last year. Nick may be able to get his church to be the food vendor at the show. We will soon be looking for volunteers to sign up early for areas of responsibility. Please take the volunteer survey at <https://forms.gle/VADPbpJEkpSGVGodA>. So far we have 21 responses to the survey! Thank you everyone.

The **Butch O'Hare Chicago Chapter** of the *International Plastic Modelers Society (IPMS)* was inspired by the accomplishments and heroism of **Edward Henry "Butch" O'Hare**, the U.S. Navy's first flying ace and Medal of Honor recipient in World War II. The original members of the organization therefore decided to take his name in memoriam. We welcome all those who have any level of interest in modeling to explore our website and visit us at our monthly meetings. Our members interests range from aircraft, armor, automobiles, and ships to figures of all types, spacecraft, sci-fi, horror, and wargaming.

Meeting Location

St. Paul's United Church of Christ
5739 Dunham Road
Downers Grove, IL

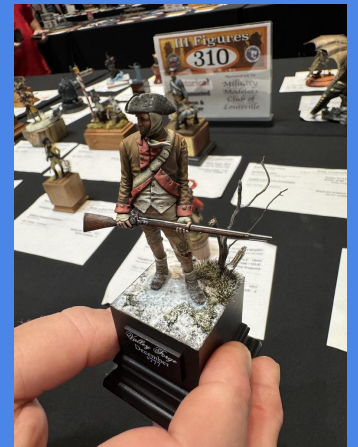

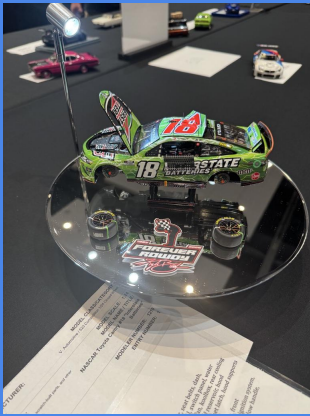

Meeting Times

7:30 PM, 2nd Friday of every month.

Nationals Photos

More Raffle Kits

Next Year's NATS will be in Huntsville, AL and the 2028 NATS will be in Shreveport, LA.

Support the Raffle Always

Nick Digrindakis and Walter continues are charge of our annual raffle. Soliciting donations is a year round activity unfortunately. Many of us have stashes that probably contain hundreds of kits. A donation of a few models that you probably will never build is not a big sacrifice. The Raffle Stash on the heels of our show and contest is depleted and can use any type of kit. The donation of a Super prize would be Super too!

Thanks to members who continue to donate on a regular schedule!!!

Please give if you can !!

Scale Model Stash Corner

This is how to prevent UPS from demolishing inbound inventory – bring it home from Nats myself! Not even room for a wafer-thin kit.

Pocher Pagani Utopia, built by Jeff Herne. He was just going to do an unboxing, but then wanted to build it, so now it's in my display case.

Unrelated to modeling, I had to share this monstrosity with a mutated appendage. Not sure if it makes the world's dumbest vehicle even worse or slightly less awful.

Oh yeah, full line of Tamiya AS sprays now in stock.

Newsletter Contributions Welcome!

We would love to have at least one article each month. Museum visits, airshows, IPMS shows, book reviews, tips & techniques, kit reviews – whatever you feel like contributing, we'll give you the space and make you famous. Please send contributions to Nick and he will add them to the newsletter. Walter! Thanks for your Volo Car Museum photos.

Swap Meet (Classifieds)

Subject: Seeking a Modeler

Hello, I found your IPMS chapter via an Internet search. First - I have no idea what I am doing. I am not a model builder. Rather, I am seeking a modeler who might be willing to take on a task for me. For payment, of course; I am not expecting a freebie. I can provide details but, basically, I'd like an off-the-shelf assembled 1/18 die cast car to have the exterior re-painted to a different color. I am assuming some disassembly may be needed as I'm not sure how one could mask-off the various trim bits such as bumpers, windshield frame, door handles... There's one or two not necessary but nice-to-have modifications I can discuss. Main thing is the exterior paint colour. Would you know of anyone who may be interested? I am in the greater metro Chicago, Ill. area so, can likely meet with someone and, I have no reservations shipping the model. Thank you very much.
